Important Information about Certification of Finances

Please read the information below before submitting this document.

It is required by U.S. Citizenship and Immigration Services (USCIS) that all F-1 and J-1 visa status applicants provide verification of finances in the corresponding amount based on the services needed (or greater), through any combination of personal, family, or sponsored funding. This means applicants must demonstrate a sufficient amount to cover tuition, living expenses (room and board), insurance, and personal expenses for one year of academic study. Please check the Cost of Attendance page to calculate the costs based on your circumstances. Once the Office of Admissions has accepted an international applicant to Westfield State University, the student must present a completed certificate of finances form with supporting bank letter(s) or statement(s), and a copy of their passport to obtain or transfer an I-20. If you are able to provide financial information by completing the Sources of Funds section below, you will only need to present the supporting bank statement(s) or bank Letter(s) after acceptance. However, if you leave the section below blank you will need to complete a Certificate of Finances form and the supporting bank statement(s) or bank Letter(s) after acceptance.

To demonstrate access to sufficient financial resources to study and live while in the United States, students can mention one or all of the following under the Sources of Funds section below:

1. **Personal or family savings:** This includes a bank account in the student's name or family members, including friends supporting the student's education.
2. **Sponsors:** This includes money available from organizations (governmental or non-governmental) providing funds or scholarships to the student. The student or the organization will need to provide an award letter from a foundation, agency, or government stating the amount of financial support to the student.
3. **Loan organizations:** This includes local governments or banks that offer student loans (please check with your local entities). This also includes organizations in the U.S. that provide private student loans to international students with the support of a U.S. citizen or permanent resident willing to co-sign the loan with the applicant.

SOURCES OF FUNDS

Enter the expected amount of annual support from the sources listed below in U.S. dollars (USD). This could include personal savings, funds from family members, friends, sponsors, and/or organizations, including loan organizations.

BANK

ACCOUNT HOLDER

AMOUNT (USD)

If you have more than one sponsor or source of funds, please include this information on a separate page when uploading your admission documents, including the account holder, amount, and source of funds.

HOW WILL YOU PAY FOR YOUR TRANSPORTATION TO THE U.S? _____

A certificate of eligibility (I-20) will be issued when the applicant presents the Official Certification of Sources of Funds and Amounts accompanied by bank statement(s) and/or sponsor letter, provided on letterhead, with signature(s), and contact information of officials. The Official Certification of Sources Form will be provided once students have completed their application and have been accepted to the university.
